advantage
Integrated Solutions™

This is where business leaders turn to connect their people and information and improve their businesses with QuickBase.

Get the ultimate Advantage.

Advantage improves business performance with apps customized to help your people work together better wherever they are. Let us improve your workflows, workgroup collaboration and productivity with the winning, web-based applications we build for industry-leading and emerging companies alike. We've transformed hundreds of workplaces using QuickBase, and integrated QuickBase with Google™, Microsoft® and other mainstream software so it fits into your business even better. Let our enterprise-level experience give you the ultimate advantage!

Why QuickBase and Advantage are #1.

QuickBase is the fastest way to your business solutions, and Advantage is the leading dedicated QuickBase Solution Provider. With more than half of the Fortune 100 and thousands of others using QuickBase to solve their diverse business challenges, you can count on QuickBase as the cloud platform and Advantage as the technology partner for your enterprise.

- Easily collect and centralize data from multiple sources.
- Turn disparate data into sharable, actionable information.

Easily connect your teams to the information they need, optimizing collaboration and workflows.

Access the power of QuickBase with Advantage.

- **Custom Apps:** Advantage develops the integrated, Custom App solutions you need to fit the way you work.
- **Pre-configured Apps:** We use winning apps we've built for others and can easily customize them to fit your business.
- **QuickBase Add-ons:** Our proprietary development expands the functionality of your QuickBase apps and integrates them with other software, like email, Google Docs™ and QuickBooks.

Advantage Enterprise Services: Fortune 500 expertise and ROI.

Advantage Enterprise Services can help you accelerate best practice deployment, provide governance and transform QuickBase from a single point solution into a versatile platform for company-wide performance and bottom-line results. We give you access to a larger, more valuable scope of QuickBase services, managing your risk and training your in-house app creators to further extend your QuickBase capabilities.

Advantage's extensive enterprise-level experience – and our results – sets us apart.

QuickBase Add-on Links better connect you.

Advantage's Add-on Links integrate QuickBase with other useful apps like your email.

- **Easy Insight:** Enterprise-quality business intelligence and data visualization for QuickBase.
- **Doc-Link for Google Docs™:** Add the power of Google Docs to QuickBase.
- **Email-Link:** Automatically centralize your emails and attachments in QuickBase.
- **File-Link:** Remove file storage constraints in QuickBase.
- **Autofy for QuickBase:** Integrate QuickBase data into QuickBooks.

Our Pre-created Apps include:

- Marketing, sales management and CRM, easily integrated with other apps
- Project management across the organization (PMO)
- Real-time performance dashboards and KPI reporting
- Cross-functional and cross-company supply chain, production, fulfillment, service and support
- Tracking of personnel, inventory, equipment, facilities and other physical and electronic assets
- Personnel certification and training tracking

Count on the recognized leader.

Let Advantage help you solve more problems and maximize the value QuickBase can deliver to your business. From workflow optimization, QuickBase app development, enterprise governance and managed deployment, QuickBase Add-Ons and system integrations, you can count on us to help you get it done right and on-time, the first time.
